

ADJECTIVE

(i) Definition:

Hello Super Learners! Get ready to discover some really cool words called **Adjectives!** These words are like the magic paint in our language that helps us see, hear, taste, touch, and feel things better when we read or listen.

What is an Adjective?

- (a) Imagine you have a toy. If you just say, "I have a toy," it's okay, but it doesn't tell us much, does it? Now, what if you say: "I have a **big, red, soft** toy." Aha! The words **big, red,** and **soft** tell us so much more about the toy! These special words – **big, red, soft** – are called **Adjectives.**
- (b) Think of a paint box full of colors. When we say **sparkly** blue, **loud** orange, or **shiny** red, the words sparkly, loud, and shiny are doing a special job! They tell us exactly what the color looks like. For example, 'shiny red' tells us the color is bright and glowing, not dull. These describing words are called **adjectives.**"

Exam Bite:

An Adjective is a word that describes a noun. (Remember, a noun is a person, place, animal, or thing – like *toy, friend, school, dog.*) **Adjectives are like 'describing words' that add details and make our sentences more colourful and interesting!**

(ii) Why Do We Use Adjectives? We use adjectives for many important reasons:

1. **To make our sentences interesting:** They add flavor and excitement. Instead of "I saw a dog," say "I saw a **fluffy, playful** dog!"
2. **To give more information:** They help us understand exactly what we're talking about. "Bring me the ball." (Which ball?) * "Bring me the **blue** ball." (Now you know!)

The Ball Basket

3. **To paint a picture in our minds:** Adjectives help us imagine things clearly. * "The house was old." (Okay.) * "The **creaky, spooky, ancient** house stood on the hill." (Wow, I can really imagine that house now!)

The Spooky, Ancient House

4. **To help us choose or find things:** * "Which apple do you want?" "The **shiny, red** one, please!"

(iii) Recap: Dear learners! Now this is time to recap what we learnt.

THE ADJECTIVE DEFINED

? **WHAT IS AN ADJECTIVE?**

An Adjective is a word that describes (tells more about) a Noun.

They are "Describing Words" that answer questions like "What kind?".

<p>A BIG, RED, SOFT TOY</p> 	<p>The SPARKLY blue car</p> 	<p>A LOUD drum</p> 	<p>He has MANY old books</p> 
<p>A KIND hand</p> 	<p>A SHINY star</p> 	<p>The water is COLD</p> 	<p>THREE cookies</p> 

Hey kids, don't forget to learn all other lessons on Adjective.
